Dominoes 1 to 5

This game will give your child plenty of practice in counting and matching to the correct numeral.

To make:

Print out sheets 2 to 6, on card if possible. Cut up the individual dominoes.

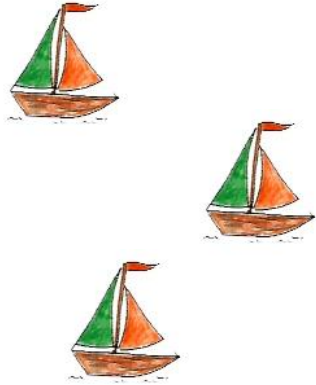

To play:

Two players each take 15 cards, or three players take ten cards each.

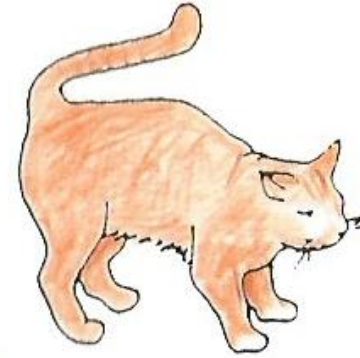

Decide who will go first. This person takes one of their cards and lays it on the table/floor. The next person must find one of their cards that can be placed joining the first card, so that the numeral and the picture match (i.e. show the same amount). Play continues to the next person. If at anytime someone can't go, then play continues to the next person. Keep playing until all the card are used up. The winner runs out of cards first.

Do encourage lots of counting. Encourage the child to verbalise as they count (count out loud) and to point to each object as they count it, to ensure accuracy. Once they get really good at it, they may recognise the number of objects just by looking at them. This is fine. Encourage your child to help you so that they get more practice!
